The Sultanate of Oman

What makes Oman special ?

-  Rich history, civilization and culture
-  Abundance of natural beauty and resources
-  Sustainable economic environment and excellent infrastructure
-  The third largest country in the Arabian Peninsula
-  Ranked 4th safest country in the world

Oman Vision 2040

Oman Vision 2040 is the national reference for economic and social planning for the period 2040-2021, and the source of national strategies and five-year development plans, taking into account the economic and social reality, objective foresight, and ability to keep pace with local, regional, and global changes. It was put in place under the wise guidance of His Majesty the late Sultan Qaboos Bin Said, and carried forward by His Majesty Haitham bin Tarik.

The vision was developed through phases, with committees and teams including experts and professionals, working in line with the best scientific procedures and international practices. They started by setting the Vision pillars and national priorities, then diagnosing the current situation of the country, then identifying the strategic directions, objectives, indicators and targets.

Society Engagement

In order to enhance the role of the different sectors of the Omani society in building the future, Oman Vision 2040 has developed a participatory approach at which individuals from different parts of the Sultanate shared their views and inputs at different stages of the Vision development. It targeted the government and private sectors, civil society institutions, municipal councils, academic institutions, and other segments such as women, youth, media professionals, people with special needs, university and school students, in addition to a group of expatriates.

A Society of Creative Individuals

Proud of their identity, innovative, globally competitive, leading a decent life and enjoying sustained well-being

Responsible State Agencies

With comprehensive governance, effective oversight, swift justice system, and efficient performance

Oman Vision 2040 Pillars

A Competitive Economy

Productive and diversified; based on innovation, integration of roles and equal opportunities; driven by the private sector, and achieving comprehensive and sustainable development

An Environment with Sustainable Components

Safe and well-preserved environment, with effective and balanced ecosystems and renewable resources

Oman Vision 2040 Indicators

Oman Vision 2040 has identified a set of national and international indicators for each of its priorities, with the aim of promoting the Sultanate of Oman's position in different fields. These indicators measure the extent to which the Vision has been achieved through the efforts made in every national priority, through realizing a specific ranking or value in certain periods up until 2040.

Main Vision Indicators

National Priorities of Oman Vision 2040

People and Society

Education, Learning, Scientific Research and National Capabilities

Health

Citizenship, Identity, and National Heritage and Culture

Objectives

A reference entity empowered to achieve the objectives of economic development, social justice, and environmental protection

Senior management with continually renewed capabilities to keep up with market dynamics, forecasts and fast-paced developments

Effective economic leadership with binding powers and a clear mandate to swiftly respond to development needs on the basis of well-defined performance indicators

A solid and effective economic legislative framework that keeps abreast with contemporary developments

Strategic Direction: A Diversified and Sustainable Economy that Is Based on Technology, Knowledge and Innovation, Operates within Integrated Frameworks, Ensures Competitiveness, Embraces Industrial Revolutions and Achieves Fiscal Sustainability

Objectives

To identify, every 5 years, sectors that drive economic diversification and other complementary sectors

A regulatory environment and governing legislations that are renewed, flexible, up to date and ensuring equal opportunities

A competitive, diversified and integrated economy based on foresight, innovation and entrepreneurship

Advanced base and IT infrastructure that empowers all sectors, and is capable of keeping pace with the latest developments and cyber security challenges

Informed, integrated and sustainable fiscal, monetary and economic policies, and budgets that ensure effective use of public revenues

A research and development ecosystem spanning the various sectors and institutions

Strategic Direction: A Dynamic Labour Market that Attracts Talents and Keeps up with Demographic, Economic, Knowledge and Technological Changes

Objectives

A labour market with a skilled and productive workforce and a positive work culture

A system of employment, qualification, promotion and incentives based on efficiency and productivity that nurture initiative and innovation

A labour market that attracts talents and skilled labour through clear and standardised recruitment policies

Laws and regulations to regulate the labour market based on professional standards and a stimulating and dynamic work environment

Strategic Direction: An Empowered Private Sector Driving a National Economy that is Competitive and Aligned with the Global Economy

Objectives

A competitive business environment that attracts investments, where the government plays a regulatory role coupled with successful, efficient and seamless management

An effective public-private partnership to improve production efficiency and a governance framework to monitor the privatization of projects and public services

Flexible and facilitated financing models that are aligned with global developments and investment needs

Diversified imports and exports in terms of goods and geographic origins, to further promote the Sultanate's global status and geographic location

An empowered and competitive private sector that leads the economy while taking into consideration the social and environmental dimensions

A unique economic identity that integrates seamlessly with global production and service supply chains

Partnership and integration among SMEs, backed by large corporations

Strategic Direction: Comprehensive Geographic Development Through Decentralisation and the Development of Limited Urban Hubs; and the Sustainable Use of Lands

Objectives

Balanced and equitable development to enhance the competitive and comparative advantages of governorates and urban areas

Urban and rural areas and cultural and natural heritage regions that are highly resilient and capable of coping with climate change effects

Empowered communities capable of setting their socio-economic and environmental priorities and operating within a framework of administrative and economic decentralisation

Smart, sustainable and vibrant cities and a vital countryside with a viable architecture that ensures high quality of life, work, and leisure

An efficient settlement hierarchy to guide sustainable urban development, accommodate the growing population and provide the necessary public services and utilities

Diversified and easily accessible means of transport, integrated with sound and targeted urban planning and sustainable world-class infrastructure

Strategic Direction: Effective, Balanced and Resilient Ecosystems to Protect the Environment and Ensure Sustainability of Natural Resources to Support the National Economy

Objectives

An environment that ensures balance between environmental, economic and social requirements, according to sustainable development guidelines.

Renewable energy, diversified sources of energy, and rationalised consumption to achieve energy security

Environmental ecosystems that are of high quality and free from pollution

A green and circular economy that addresses national needs and moves consistently with the global trends

Food and water security achieved through renewable resources, advanced technologies and optimal exploitation of the Sultanate's strategic location and biodiversity

Environmental awareness coupled with the effective implementation of sustainable consumption and production rules

Sustainable use of and investment in natural resources and wealth to deliver high added value

Strategic Direction: Participatory Legislative System; Independent, Competent and Swift Judicial System; and Effective and Transparent Oversight

Objectives

Flexible legislations and an independent legislative branch possessing full power

An effective and independent oversight system that adopts transparency and disclosure to combat corruption, with the media assuming an active and insightful role

Swift impartial and competent judicial system that employs forward-looking technologies

A society that is legally educated and actively engaged in legislative and oversight processes

Effective alternative dispute resolution methods that render the Sultanate a global centre in this area

National talents who are specialized, qualified and trustworthy in the areas of legislation, judiciary and oversight, and who operate in an attractive environment

A comprehensive oversight system that protects national assets and applies the principles of accountability

Strategic Direction: Flexible, Innovative and Future-Shaping Administrative Bodies Operating with Good Governance

Objectives

High quality and high-performance government services

Clear and competitive recruitment standards for leadership positions in the public sector and public agencies

Composed and trustworthy government decisions

Transparency and institutional disclosure to ensure the right to access information

A forward-looking public sector with sectoral structure that is effective in planning, regulation, monitoring and evaluation

Balanced, long-term partnership, and integrated roles between stakeholders including government, the private sector, civil society and individuals to ensure effective institutional performance

Effective governance of resources and projects

Follow-up Unit

December 2020

Launching
Oman Vision 2040

Oman Vision 2040 Implementation Follow-up Unit reports to the Council of Ministers and follows up on the work carried out by public and semi-government entities, observing the roles of all sectors related to the Vision's programs, according to their respective capacities and mandates. The unit also provides necessary support and proposes appropriate solutions to existing challenges, while ensuring integration of efforts.

National Programs

The national programs are fast-paced, intensive programs designed to address the phase challenges related to the national priorities of Oman Vision 2040 and push forward its indicators. These programs are developed in line with the objectives of the five-year development plans. They are carried out by several government entities, and followed up by aligning the indicators of the entities with those of the programs.

Current National Programs

The National Program for Fiscal Sustainability and Financial Sector Development
"Estidamah"

The National Program for Economic Diversification
"Tanwee'a"

The National Program for Investment and Export Development
"Nazdaher"

The National Employment Program
"Tashgheel"

The National Program for Carbon Neutrality

Government Digital Transformation Program
